DEPARTMENT OF THE ARMY
FORT WORTH DISTRICT, CORPS OF ENGINEERS
P. O. BOX 17300
FORT WORTH, TEXAS 76102-0300

REPLY TO
ATTENTION OF:

May 26, 2010

Planning, Environmental and Regulatory Division

Dear :

This letter is to notify you that the U.S. Army Corps of Engineers (USACE) Fort Worth District, in partnership with the City of Dallas, is preparing an Environmental Assessment (EA), pursuant to Section 102 of the National Environmental Policy Act as implemented by the regulations promulgated by the Council on Environmental Quality (40 Code of Federal Regulations Parts 1500-1508) and USACE Engineering Regulation 200-2-2 for proposed improvements to the Baker Pumping Plant, located off Irving Boulevard northwest of the Sylvan Bridge in Dallas, Texas.

The Proposed Action consists of constructing a new 700,000-gallon per minute capacity pump station and outfall, rehabilitating the existing New Baker Pump Station, and decommissioning the existing Old Baker Pump Station. In addition, the Proposed Action includes extending the existing New Baker Pump Station outfall approximately 300 feet into the Dallas Floodway. The EA will describe the action alternatives and affected environment, and will analyze the potential environmental effects of the action alternatives.

Our office will send you additional correspondence soliciting your input as we progress through the NEPA process. We look forward to receiving your comments as we move forward. Thank you for your cooperation.

Sincerely,

William Fickel, Jr.
Chief, Planning, Environmental and Regulatory
Division

A handwritten signature in black ink that reads "William Fickel, Jr." with a stylized flourish at the end.
