Corps of Engineers announces new hunting permit requirements at Lavon Lake

FORT WORTH, Texas – The U.S. Army Corps of Engineers, Fort Worth District, announced a new requirement for hunting on Corps property at Lavon Lake. In an effort to better monitor hunting use and success, a new permit system will be utilized to keep track of recreational hunting activity.

Beginning September 1, 2007, all hunters must obtain a permit each year. Permit periods will be concurrent with the Texas Parks and Wildlife hunting license renewal dates. This requirement applies to all hunters regardless of season or game hunted. A single permit is good for all hunting areas and all legal game during the permit period. The permit requires a valid state hunting license, a hunter safety card or proof of exemption, a signed liability waiver, and identification. Hunters must complete a hunter activity survey in order to be eligible for a permit the following year.

Participants may register in person at the Lavon Lake Office at 3375 Skyview Drive, Wylie, Texas, 75098, Monday thru Friday from 8:00 a.m. until 4:30 p.m. or register by mailing a copy of a valid hunting license, a copy of a hunter's safety card or proof of exemption, a signed liability waiver, a copy of valid identification, two current phone numbers, and a self-addressed stamped envelope, to the lake office attention Hunting Program.

Failure to include any of the above items will result in the application being discarded. All permitted hunters will receive a permit card and vehicle tag. Hunters must have this card on their person and the vehicle tag displayed when hunting at Lavon Lake. By accepting this card, hunters acknowledge receipt and understanding of hunting regulations and applicable state laws. Hunting without a valid hunting permit may constitute the issuance of citation. Permits have no fee associated with them and are not limited in number at this time. Please contact Derek Ivie or Matt Falkner at (972) 442-3141 for more details.
