

# Abilene, Texas (Brazos River Basin)

**Purpose:** The study has been reactivated at the request of the non-Federal sponsor, the city of Abilene, Texas. Feasibility studies are being undertaken using state-of-the-art technologies to accurately define a highly complex flooding problem impacting most of the city of Abilene, and then formulate a plan that best meets the study objectives.

**Sponsor:** City of Abilene

**Congressional District:** TX-19 Neugebauer
