

Guadalupe and San Antonio Rivers Basins, Texas

Purpose: Investigate the water resources problems, needs, and opportunities within the Guadalupe and San Antonio River Basin. There are currently three interim studies (Cibolo Creek, Leon Creek & Salado Creek). All three interim studies are multipurpose in scope are flood risk management, ecosystem restoration and water supply/quality. Cibolo and Leon Creek are both in the alternate.

Sponsor: Guadalupe-Blanco River Authority,
San Antonio River Authority, San Antonio Water System

Congressional District: TX-11 Conaway; TX-14 Paul;
TX-15 Hinojosa; TX-20 Gonzalez; TX-21 Smith;
TX-23 Rodriguez; TX-25 Doggett; TX-28 Cuellar
