

# Lower Colorado River Basin, Wharton and Onion Creek, Texas

**Purpose:** The project consists of three separate segments: Timber Creek and Onion Creek Forest/Yarrabee bend in Austin, Texas and Wharton, Texas. The Timber Creek segment includes the acquisition and removal of approx. 81 residential structures from the 4% annual chance of exceedance (25-yr) floodplain. The Onion Creek Forest/Yarrabee Bend includes the acquisition and removal of approximately 410 residential structures from 4% annual chance of exceedance (25-yr) floodplain. The vacated lands will be centered to parks with recreational facilities for walking, biking, running, picnicing, and open space. The Wharton segment is a structural flood damage reduction project, and it will include approx. 26,900 ft of levees, 2,290 ft of floodwalls, 7,000 ft of channel modifications, and interior drainage features which will effectively remove the vast majority of the city from the 1% annual chance of exceedance (100-yr) flood plain.

**Sponsor:** City of Wharton, City of Austin, and Travis County

**Congressional District:** TX-14 Paul; TX-25 Doggett
