

# **WWTP, Meridian, Texas**

**Purpose:** Past and present land use practices and urban encroachments into the riparian zone of local tributaries of the North Bosque River within the city limits of Meridian, Texas degraded the existing habitat of the area. The goal of the study is to recommend a plan that would restore the degraded habitat to a more natural condition. Opportunities exist for restoring riparian bottomland hardwood and in-stream aquatic habitat and created emergent wetland habitat for the benefit of all resident and migratory wildlife indigenous to the area.

**Sponsor:** City of Meridian, TX

**Congressional District:** Edwards, TX-17
