

Central City, Fort Worth, Upper Trinity River Basin, Texas

Purpose: The project would include the construction of a 1.2 mile bypass channel, two closure gates and other features to control flood flows along the Clear Fork and West Fork of the Trinity River. The project would restore the Standard Project Flood (SPF) level of protection for the Federally authorized Fort Worth Floodway project.

Sponsor: Tarrant Regional Water District

Congressional District: Granger TX-12, Burgess TX-26
