

Cypress Valley Watershed, Texas

Purpose: The study would examine the current and projected water resource uses and needs, including the Caddo Lake wetlands, and evaluate potential ecosystem restoration benefits, impacts of proposed environmental flow recommendations, and how Lake O' the Pines reservoir could be operated to potentially meet a broader spectrum of water resources needs.

Sponsor: North East Texas Municipal Water District &
The Nature Conservancy

Congressional District: TX-01 Gohmert; TX-04 Hall;
LA-04 Fleming
