

## **Drug Enforcement Administration (DEA)**

### **Miami Labs, Miami, Florida**

Provide engineering services for the DEA during the procurement of a new DEA lab facility located in Miami Florida.

Description: Support the DEA as the customer procures a prototype design for an approximate 59,000 gross square foot one story new building that includes four separate modules of functional area, such as Chemical Analysis Laboratories, Office Space, Training Room, and Support Spaces, as well as an approximate 5,000 square foot evidence vault. The PPD are of a mostly complete level of construction documents, prepared by the prototype designer, to form the basis of adaptation by the Lessor. The USACE, as contracting organization shall also provide project management and construction management oversight for the DEA during the construction to insure quality and compliance with the approved design, by the Lessor.

Contract: \$1,102,083.22

Progress Schedule: Contract awarded to A/E firm in December of 2008
